Bryan, can I get the EPA's thoughts on a group that now has a "Gamma Pal" for testing the area around West Lake?

They say they "hope they never have to use it" and want the EPA to test around the site instead.

This is some background from the paper.

http://www.stltoday.com/lifestyles/health-med-fit/health/law-firm-donates-radiation-detector-to-residents-around-west-lake/article_e62c8907-9754-55ca-8a66-ab8f2999bf1d.html

It's a "gift" from the same law firm that's filed suit but Just Moms STL says they have nothing to do with the suit.

Thank you,

Casey

Casey:

EPA statement follows –

EPA Region 7 was made aware of the lawsuit by the press coverage. We have not seen the lawsuit and, as policy, never comment on ongoing litigation.

All validated scientific data available to EPA establishes that current conditions at the site are protective of public health. EPA continues its enforcement actions to ensure work progresses toward installation of the isolation barrier and implementation of a final remedy.

You can reach me through the weekend at my blackberry number – 816.519.0697. I will be available for the next 30 minutes. This is all I have for you at the moment. Chris Whitley will be back at EPA on Monday beginning at 9 a.m.
